

ADULTING:

Skills, Thrills & Bills

Adulthood, explained in 10 phone calls.

Adulthood arrives all at once — a first paycheck, taxes, credit, insurance, rent, a car — and somehow you're expected to already know how it all works.

Skills, Thrills & Bills turns the essentials of adult life into 10 "phone calls" students learn to recognize, understand, and answer.

AUDIENCE Ages 17-22

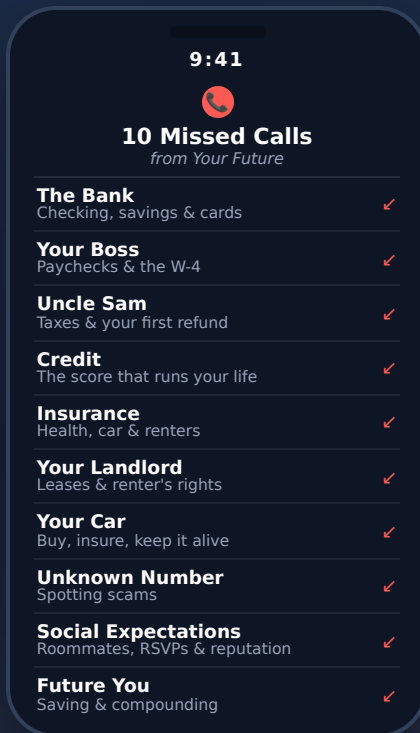

FORMAT 90 minutes · fast-paced & interactive

STYLE Phones out · plain English · humor · real-world tools

THEY DON'T JUST LISTEN. THEY DO IT.

Students use their phones throughout the seminar to build a personal **Adulting Toolkit** they take with them — including their free credit report, the IRS withholding estimator, identity-theft resources, budgeting and car-loan tools, and other trusted resources they'll need as young adults.

THEIR PHONE WON'T STOP RINGING

ABOUT LORIANN

LoriAnn brings years of professional training experience, including six years as a corporate trainer with Merck. Earlier in her career, she spent three years delivering career presentations to high school students through a business school. Today, she brings that experience together to make real-world adulting skills practical, understandable, and engaging for young adults.
